

Looking for a 1964 2+2 or 1963 Catalina

Posted by Sgenge - 2014/10/06 22:39

I have been looking for aprox 8 months for a 1964 2+2 in very good to restored condition #2 or higher car, 2 door hard top. I have a couple of Pontiacs and I have a real soft spot for 1960s big cars. First and foremost the car must be a stick car, I would like a 421 but a 389 would work as well, I would like a tri-power or dual quad car and 8 lugs would be a bonus. Colour is not an issue but a darker colour would be nice. I am willing to pay for the right car. I live in Edmonton Alberta but visit the Western US 4 to 6 times a year for auctions and car event. I can be reached at sgenge@torchindustries.ca. Your help would be appreciated as it's been a struggle. Thanks Shawn

Shawn

I have a 1964 Pontiac Catalina 2+2, 389 TRI Power, 5 Speed Doug Nash, Former New Mexico automobile.

This is a repaint auto that needs a third paint job.

So on summary the paint and trans are not stock.

She is very solid with an exceptional black bucket seat interior.

I have sold my collection over the past nine years. This and an old Mercedes SL car remain.

I'm not understanding your message.

My request was about your Mercedes - year, model, you selling?

Will be putting these cars on consignment. There are 60 web sites with financing available. No hassle selling. This has proved to be the best solution on the other cars.

Thanks for your inquiry..
