

Need New Clutch Fan, 1965 Grand Prix 389 w A/C

Posted by CORVAIRWILD - 2015/09/10 08:03

My newly acquired GP runs a little hot in traffic, and I noticed even upon hot shut down, the clutch fan free-wheels. I looked at RockAuto and Ebay and only saw sketchy used or universal fit only. Any alternatives? http://www.pontiac2plus2registry.com/images/fbfiles/images/CIMG7871_Custom.JPG

\$129 for a \$50 part is a bit high. I'd just go to a NAPA store.
