

## 1965 2+2 coupe - Tri-Power 4-speed on Ebay

Posted by OldInjun - 2016/01/25 10:10

---

If you're looking for a nice original '65, this is a good one:

click this link

I just spoke with the seller and everything he told me about the car sounds good. PHS doc's verify that it is original Tri-Power WH code motor, 4-speed. Nicely equipped with factory tach, rally gauges, full dash cover, rear speaker. Reef Turquoise is original color, but has been repainted at some point. Black interior with reupholstered driver seat.

If I didn't have one already, this is the one I would buy.

Better hurry - auction ends Tuesday. It's at \$15100 now, reserve not met, but I believe his target price is fair.

Auction ended early - I'm guessing it sold.

You're right - should bring higher bids. I spoke at length with the owner's son, and it is a very desirable, nicely optioned car. Unfortunately it will require a hefty investment to restore properly. It needs restoration of tail panel, headlight bezels, grills, console - anyone who has experienced that knows how painful that is.
