

65 2+2 421 carb and air cleaner

Posted by Hank - 2016/05/10 16:45

I have a 65 carter that came off a 421 2+2 i had a few year's back. It has been restored and rebuilt to new condition by Chris's Carb shop in Dayton Ohio. The air cleaner is near mint with a new air filter. I put a tri-power on the car and have no use for these part's now. \$300 plus shipping for both. I have more than that in the carb alone. 814-271-9571 Hank
