

RockAuto Collector Magnets!

Posted by RockAuto - 2017/01/25 11:12

For more than 10 years, RockAuto has been featuring customers' cars on our Collector Magnets, and including one inside the shipping box with most customers' orders. They are real cars that are still on the road today, thanks to their owners' loving care and parts purchased on RockAuto.com. We regularly issue batches of new magnets in limited quantities so more customers get a chance to have their cars in the magnet limelight. We hope all customers have fun receiving the magnets with their orders and expanding their magnet collection! At the request of customers seeking additional magnets, we now also offer a pack of 5 random RockAuto Collector Magnets, available for purchase [here](#).

If you purchase parts from RockAuto.com, we would like to give you the opportunity to have your car or truck possibly featured on a RockAuto Collector Magnet! New, old, import, domestic, daily driver, trailer queen, classic, antique, we want to see them all! Please email flamur@rockauto.com with your favorite images (tips for taking pictures of your car) and what parts from RockAuto you have used.

Do you have an impressive collection of RockAuto magnets lining your refrigerator or toolbox? You're not alone! Share a picture of your collection below, and prepare to amaze your fellow collectors!
