Once again the registry has helped in my restoration.  
thanks Jack for all the work you do, & thank you Hank, nice one.

My friend Hank is an honest parts vendor and has helped several Registry members in their quest for  
those hard-to-find pieces.  
Todd's experience is one of the main reasons I started the Registry in 2010. I only wish more 2+2  
owners would take advantage of the community we've built.
