

## '65 Coupe - Entry-level project car

Posted by OldInjun - 2018/06/06 17:49

---

It's not often that an unmolested, original, running '65 2+2 comes on the market for under \$10K, so if you're looking for a project with potential, check this one out:

[Click here for link](#)

The car has been inspected and is street legal. Body has rust issues, but it sounds as if the previous owner invested quite a bit in servicing the mechanicals. This is for sale by my friend "Bonneville" Joe Evans in Texas. Joe says he wouldn't be afraid to drive it cross-country, and he's a straight shooter (I apologize for the pun).

Tell Joe I sent you.

Happy Hunting.

=====
