

1965 pontiac 2 plus 2 conv. for sale - SOLD

Posted by fredscat - 2019/09/05 10:04

Reluctantly selling my 2 plus 2 vert. factory black with black interior. born with 421 four speed tripower! Factory AC with tons of factory installed options! Not added after ! Original build sheet with repro window sticker! Car listed for almost 6g when built! This is a very nice car but it is not concourse! I would call it a strong number 2 condition! Pics are on this website and other pics can be sent by phone only to serious buyers! I consider this model and year to be the HOLY GRAIL of the 1960 full size cars! Many times I have been told that this was the nicest car at car shows cruises and also at Norwalk once by well known Pontiac guy Bonneville Joe Evans from Texas! I am selling this car for 75g If you are seriously looking for a real deal 2 plus 2 this is a rare opportunity for you! thanks you Fred 917-545-1641 Forgot to mention it was also a magazine feature car in muscle car review and I have magazine copy
