

## 1967 2+2 Registry

---

I've been working on my own private page lately of my own cars and such and have started a 67 specific 2+2 registry on there. I have not yet published it as I'm still working on it but you can see below what my intentions are. If I am fortunate enough to have a pic of the car I have it pasted next to the info. That pic is also a clickable link that will take you to more pictures of the car and in some cases a copy of the PHS if I have it or the owner shares it with me. Feel free to share your opinions or ideas.

Best regards,

Interesting project - good luck with it.

If you do a search of this Registry, we currently have 43 vehicles from 1967.

I was able to get those from the site here and others I've collected along the way through for sale ads, internet and others that have emailed me their information.

Still needs work but here is the link...

Just a quick update. I've been able to add more to this 67 2+2 registry I've been working on. Actually ended up buying another one out of Minnesota :laugh: Will be getting some excavating done this fall and planning for a shop next spring. Need to get these cars done!
