

Articles of interest

Posted by OldInjun - 2010/08/22 16:41

We just posted a copy of a vintage road test comparing the '65 2+2 to the "65 GTO which is pretty interesting.

If you haven't already, I suggest you browse the Articles tab & the Links tab - there's some good stuff there.

We are asking anyone who has information to add to forward it to me for posting. I am particularly interested in getting copies of sales brochures for years other than 1965 (I have those). That would help me to complete the specifications tab.

Beside the Registry, we are hoping to make this site a comprehensive source of information of interest to all 2+2 owners & fans. Anything you can supply towards that goal is appreciated.
