

New member saying hello

Posted by Pierre672+2 - 2010/09/09 02:06

Hello everyone,

I am Pierre and I just recently purchased a 67 Parisienne 2+2. It is Silverglaze Metallic, with a red interior. The car has all its originality. I had my VIN ran through GM of Canada and it shows it is 1 of 3,872.

The Options I have on it are:

Vinyl Roof (black)

M40 - Th400

L30 - Astro Flame 327/275hp (on the registration from, this engine was not listed as an option)

Power Steering and Brakes and of course the cool AM pushbutton radio and those white walls

I will be painting it black soon. Now I have to figure out, to downsize my images so I can post pics.

Nice to join this community.

Pierre

Pierre-

Welcome aboard!

Sounds like a neat ride. I love the silver/red color combo - same as my '62 Corvette. visually very striking. Personally, I wouldn't change it. But, of course, it's not my decision.

Looking forward to some pictures. Go to the "Articles" tab for photo re-sizing instructions.
