Click here for the coupe

Incorrect early tach, incorrect dash (sewn), red over-spray on the ashtray. But enough nitpicking - this is a beautiful car. I love the colors. Anyone looking for a nice 2+2 should jump all over this.

I'm thinking you are low. Somebody put a ton of \$\$\$ into this car, and (at least in pictures) it looks well done.

If I were in the market, I'd hit that Buy-it-now at \$30K.

Well bought @ \$30K. Someone got a nicely done car for a lot less than it would cost to bring to that level.

You're right. I forgot it was a 4 spd. \$30 was a fair price
