

1965 Catalina body parts & misc. Pontiac engines

Posted by OldInjun - 2011/12/28 11:07

Yesterday I took a drive to the Harrisburg, PA, area to check out a gent's barn-full of car parts. If anyone needs a complete front clip for a '65 full size (including at least the passenger door, maybe a driver-side door), or a very nice trunk lid, contact me at @ 302 353-0244.

He also has three 389 engines and a '76 455 engine (this one complete, including a/c compressor), a variety of Pontiac hub caps (no 8-lug stuff), a set of '65 full size bumpers.

This stuff is due to be sold for scrap - I bought some of it, but don't have room to store a lot of parts I may never need. I'm hoping that collectively we can save most of these parts.
