

1965 2+2 Convertible 4-speed

Posted by OldInjun - 2012/06/02 09:20

Registry member "louberr" has his 2+2 up on Ebay. These don't come up very often, and this is a real nice one:

[Click here for link](#)

PHS documented. Beautiful fresh Montero Red paint, 4-speed with console, original WG-code engine upgraded with a Tri-Power set-up. Plenty of options:

Factory Tach

Power Windows

Rally gauges

AM/FM Radio

8-lug Wheels

I've personally inspected the car and think it is a really nice example. A great cruiser which wouldn't take a lot of work to make into a concours competitor.

This car sold on 6/8/12 and has been re-registered by the new owner "staffieri".
Drive it in good health and "Welcome to the Registry!"
