

1965 on Ebay - Clone?

Posted by OldInjun - 2012/10/29 14:57

there is a 1965 coupe for sale on Ebay - project car.

I suspect it is not a real 2+2 - incorrect fenders with Catalina emblems. Hard to read, but it appears the name plate on the dash is "Catalina", which would be incorrect. Incorrect upholstery.
Buyer beware.

Any other opinions?
