Congrats on your award!

Posting photo's can be done any of 3 ways:
1. click the "browse" button next to "Select image file to attach" below and upload from your computer - just make sure the image is re-sized to fit, and is in the correct file format. Too many people take photo's with a gazillion megapixel camera and try to shoehorn it in - that won't work.
2. upload your photo's to a "cloud" site like Photobucket or something similar, then paste the link into the image link, 4th from the right above
3. email the photo's to me and I'll do it.
