

## "Mr. 421" Drag Car?

I received a message from a reader asking the following:

"I remember years ago a 1965? Pontiac Catalina 2+2 Convertible in Ravena, NY.

It was a white convertible with the logo "Mr. 421" painted on the side, and I believe was owned by someone named Jones; the car was popular on the local dragstrips back in the '60's, probably Lebanon Valley.

Just a shot in the dark, but do you have any info on this vehicle??

Thanks!  
Dick Weis"

I cannot find a 2+2 on the Registry which might be the subject car. If anyone knows its whereabouts or remembers the car/owner, please chime in.
