

## '63 Catalina 2-dr coupe

Posted by OldInjun - 2014/02/24 10:09

---

Okay, it's not a 2+2, but I like to think that, had Pontiac thought of it, the '63 model would have been among the best 2+2's.

I just bought this car 4 months ago with the intention of making it my drag strip car, but a turnkey '63 race car has just become available, so I may go that way.

This is a very original 2-door coupe, repainted in original color Marimba Red (some people call it burgundy) with a nice red fabric bench seat interior. Chrome/stainless are in nice condition. Body is straight. Entire drive train appears to be factory original, a 389 2-BBL (although the PHS docs say it was a 4-BBL engine - I still need to figure that out), 3-speed manual column-shift, 3:23 posi-traction, dual exhaust.

I've had the entire front suspension rebuilt - all new bushings, ball joints, nicely blasted & painted. The car runs great - I wouldn't hesitate to jump in it today and drive it coast-to-coast.

I'll sell it for what I've got in it - \$11,000 - for a quick sale. Call Jack @ 302 353-0244 or email: jgand789@hotmail.com

SOLD! SOLD! SOLD!
