

## 2+2 Values

Posted by OldInjun - 2014/03/29 15:11

---

Found an interesting chart on Hagerty.com showing the value trend of 2+2's over the most recent six years (example shown is for a '65 2+2 coupe, H.O. engine). The last year has shown almost a 50% increase according to this data. Of course this is based on a limited sample, since there are not that many recorded 2+2 sales in one year, but hopefully it reflects some long-overdue recognition in the marketplace of the true value of these cars.
