

1965 2+2 coupe Tri-Power 4-speed with air

Posted by OldInjun - 2014/05/16 15:50

For those of you who don't know him, Larry Kosek created the first 2+2 Registry back in the '90's, and kept it going through 1995. His original list is under the "Articles" tab. Larry has owned (I think) seven 2+2's over the years and is the POCI 2+2 Tech Advisor.

Larry is selling a beautiful '65 Blue Mist Slate coupe, original 4BBL 4-speed, now equipped with a model-correct Tri-Power set up. The interior is all original except for the carpet and headliner, with no rips or tears. Larry says it has 42 options, so it must be a heck of a ride.
